

**WHAT IS CLAIMED**

1. An antibacterial tissue including:

an upper planar shaped absorbent member;

an intermediate planar shaped absorbent member having a  
5 plurality of apertures formed therein coupled to the upper planar  
shaped absorbent member;

an antibacterial member formed on an upper surface of the  
intermediate planar shaped absorbent member between the upper  
planar shaped absorbent member and the intermediate planar shaped  
10 absorbent member; and

a lower planar shaped absorbent member coupled to a lower  
surface of the intermediate planar shaped absorbent member.

2. An antibacterial tissue as defined in claim 1 wherein the  
upper planar shaped absorbent member includes a thin paper-  
15 like absorbent material.

3. An antibacterial tissue as defined in claim 2 wherein the  
intermediate planar shaped absorbent member includes a thin  
paper-like material having a plurality of openings formed  
20 therein.

4. An antibacterial tissue as defined in Claim 3 wherein the  
antibacterial member is a dry antibacterial member which is  
activated by moisture.

Sub  
A1

5. An antibacterial tissue as defined in Claim 4 wherein the antibacterial member includes a layer of antibacterial soap.

6. An antibacterial tissue as defined in Claim 4 wherein the antibacterial member includes a layer of betadine.

7. An antibacterial tissue including:

an upper planar shaped absorbent member;

a lower planar shaped absorbent member having a plurality  
of apertures formed therein coupled to the upper planar shaped  
absorbent member; and

an antibacterial member formed on an upper surface of the  
lower planar shaped absorbent member between the upper planar  
shaped absorbent member and the lower planar shaped absorbent  
member.

8. An antibacterial tissue as defined in claim 7 wherein the  
upper planar shaped absorbent member includes a thin paper-  
like absorbent material.

9. An antibacterial tissue as defined in claim 8 wherein the  
lower planar shaped absorbent member includes a thin paper-  
like material having a plurality of openings formed therein.

10. An antibacterial tissue as defined in Claim 9 wherein the  
antibacterial member is a dry antibacterial member which is  
activated by moisture.

11. An antibacterial tissue as defined in Claim 10 wherein the  
antibacterial member includes a layer of antibacterial soap.

12. An antibacterial tissue as defined in Claim 10 wherein the  
antibacterial member includes a layer of betadine.
